IHS V1 – V3: Specialisation

Depending on their specialisation, regular students can choose between different courses

Health Economics and Health Policy

- GÖP 1: Basic Principles of Economics and Politics
- GÖP 4: Health Financing
- GÖP 5: Design of Health Care Organisations
- GÖP 7: Resource Allocation in the Health Sector
- GÖP 9: Managed Care

Health Promotion

- GF 8: Health Promotion Strategies
- GF 12a: Workplace Health Promotion
- GF 12c: Health Reporting
- GF 15c: Environmental Health Protection

Health Management

- GPM 1: Entrepreneurial Approaches and Actions in Healthcare Organisations
- GPM 4: Design of Health Care Organisations
- GPM 7: Management and Leadership in Healthcare Organisations
- GPM 8: Managed Care

IHS 8: Elective Course

Students can complete any related course(s) worth at least 10 ECTS in a different study programme at Fulda University of Applied Sciences or at another institution of higher education in Germany or abroad that teaches skills relevant to global health professions. Options include:

- Completing additional modules within the chosen specialisation
- Expanding language skills in a third language
- Advancing intercultural skills or skills related to working in international organisations

IHS 10: Study Project

Students can choose among approx. 4 different projects. We usually know around July which projects will be offered in the following semester starting in October.
