

Module IHS 2	English for Global Health	
Responsible: Head of the Centre for Intercultural Language Practice		
Qualification level: Bachelor's degree	Academic term: Semester 1 and 2	Type of module: Compulsory
Credits: 10	Total workload: 300 hours	Contact hours: 144 hours
		Self-study hours: 156 hours
Duration and frequency: 2 semesters / annually	Prerequisites: English B2*	Language: English
Learning objectives:	<p>To be able to communicate complex, specialised issues in the fields of globalisation and health in a structured and detailed manner, to present contents in a target audience specific manner, and to argue soundly in English. To be able to interpret, describe, and summarise (social) epidemiological data, to develop short presentations on global issues in health science and health politics, and to discuss these presentations in English. To use individually investigated materials to practice the correct use of academic language and other aspects central to discussions and presentations.</p> <p>To practice, develop, and advance student knowledge of academic and general terminology, particularly that frequently used in health sciences. To acquire — via an activity-oriented programme in a university-specific setting — the academic English language skills required to successfully complete an English language study programme, a period of study abroad, an internship, or a research stay abroad, and to be able to pursue a professional career in an English-speaking environment.</p> <p>To acquire advanced receptive and productive language skills. To expand students' proficiency in English to the C1 level of the Common European Framework of Reference for Languages.</p>
